## PATIENT SAFETY CONTRACT

As physicians we are committed to, not only the health and well-being of our patients, but also to their safety. Most incidents resulting in harm can be traced to complex system factors often combined with inadvertent actions by health care providers.

The most important way to reduce the risk of injury in these situations is for everyone to become active advocates for safety. That specifically means that when anybody in the system; patient, staff, nurse or physician, perceives an unsafe situation they must intervene so the incident can be averted.

To accomplish this end, it is imperative that there is a culture of continuous quality improvement attached to the issue of patient safety and that every physician becomes its champion.

LUMC Patient Safety Hotline – 327-SAFE

Please print, sign and date in the spaces provided on page 4 of the Loyola Graduate Medical Education application to acknowledge receiving and reading Loyola University Medical Center's PATIENT SAFETY CONTRACT.
